

High quality Safety Data Sheets that comply with national Regulations including REACH and GHS/CLP in all languages and exceeding customer expectations - All at the lowest price in the market

Whether you want to compile SDS yourself or outsource the task to our experienced professionals, GMSDS offers the lowest cost software and authoring services in the marketplace. Low cost does not mean low quality as we use our award winning HazMix® software to achieve unrivalled savings that we pass on to you.

HazMix® is a unique web-browser product for SDS authoring that is

- Very low cost (from £5/SDS)
- Pay-as-you-go (no capital outlay or annual maintenance charges)
- SDS outputs as pdf, Word® and Writer® for ultimate flexibility of output
- Labelling output for proprietary label software

Includes Free

- Wiki-based access to ECHA's on-line Registration and Classification databases using deep web-spiders (ECHA approved) as well as Gestis databases of DNELs, dust explosion data and handling (glove protection) advice
- Wiki-based access to Global Occupational Exposure Limits and BEIs
- Classification algorithms for Supply (CLP, GHS and OSHA GHS) and Transportation (all modes)
- Intuitive interface using intelligence based SMART logic
- 'push button' authoring and 'drag and drop' editing
- Wiki-based data access to over 13000 global chemical regulations
- 9,800 phrases in 39 languages
